**Coatings and Adhesives Corporation awarded certification to supply EnviroShell<sup>™</sup> Adhesive for Eco-Friendly Consumer Substrate.**

Leland, North Carolina January 23, 2008

Coatings and Adhesives Corporation is proud to announce that we have been awarded preferred status product certification from Winterborne, Inc. for use on EnviroShell<sup>™</sup> the award winning Next Generation in Packaging. Coatings and Adhesive Corporation's EnviroShell Adhesive was developed for use on EnviroShell<sup>™</sup> Packaging materials and recognized by Winterborne as the preferred supplier of adhesive to be used on their packaging materials and has been found to work best for EnviroShell. The EnviroShell Adhesive is available to confirmed licensees of Winterborne, Inc.

Coatings and Adhesives and Winterborne Inc. are working together to promote sustainable green printing practices and stunning packaging. The EnviroShell adhesive is a waterbase adhesive that is bio-degradable and recyclable. EnviroShell adhesive is tough enough to hold the package together while being eco-friendly on the environment.
