

Dear Valued Customer,

I hope this message finds you well. First and foremost, I wanted to thank you for all the business you have afforded Coatings and Adhesives Corporation throughout its 35 plus year history. It has been a pleasure serving you. Today, I wanted to personally share some important company news with you. INX International, a leading manufacturer of printing inks and coatings, has entered into an agreement to acquire Coatings & Adhesives Corporation. Upon completion of this acquisition, we will operate as INX International Coatings and Adhesives, a sister company alongside INX International Ink Co.

This is an exciting opportunity that will drive targeted focus and growth, positioning us - and you, our valued customers - for continued success. The two companies will collaborate under a single management group to provide complementary ink and coatings solutions for the print and packaging market.

Currently, our operations and communication channels with you remain unchanged. You should continue to contact your primary CAC and INX representatives for products sold by each company until further notice. If you have any questions or need further clarification, please don't hesitate to reach out to your CAC representative, who will respond promptly.

The full press release will be available on our website at [INX Group Limited Acquires Coatings & Adhesives Corporation, Launches INX International Coatings and Adhesives](#). Driving innovation in our products and experiences, and fostering strong relationships with customers and partners, will remain key priorities for us. We continue to be committed to our key values of quality, innovation, and operational excellence.

Thank you for being an integral part of our journey as a global leader in the print and packaging market. We are excited about the future and look forward to continuing our partnership as INX CAC!

Warm regards,

Rick Pasin

President
